T4T AGENDA

TIME	PRESENTATION	ROOM
09:00 - 09:15	WELCOME Chief Information Officer Superintendent Rob Cochrane	TE ATA HAPARA
09:15 - 10:00	PANEL DISCUSSION Representatives from NZ Police, Smudge, Vodafone and Apple discuss how they work together differently to deliver innovative equipment to Police frontline services.	TE ATA HAPARA
10:15 - 10:45	HP HP Device as a Service, the office of the future and changes in IT The IT department is changing, as people look to this area of the business, to drive efficiency and productivity. People are noticing the evolution from cost centre, through service centre, to innovation centre. The focus of IT has shifted from cost reduction and standardisation to business innovation, transformation and value creation. It's the one part of the business which can truly create end-to-end connectivity and improve departments in every area and employees at every level. Presenter: David Adams	TE ATA TUHI
10:15 - 10:45	MICROSOFT Microsoft - Cloud-powered innovation & collaboration in public safety. Tech Strategist Peter Haigh explores data and AI innovation opportunities for public safety. Productivity Specialist Nic Bishop showcases modern mobile collaboration tools now available to NZ Police.	TE ATA MAHINA
11:00 - 11:30	TAIT COMMUNICATIONS Enhancing Frontline Services via Tait's Future Networks Connection Strategy As a NZ Police Strategic ICT Partner, Tait Communications is working with Police on a number of communication innovations to help improve officer safety, productivity and enhance the overall frontline service experience. As the number of communication network options increases for NZ Police (Radio, Cellular, Satellite, WiFi, Bluetooth) there are now many more choices and opportunities for officers to communicate with each other, command and control, and even with other agencies. Tait is working with Police to remove this complexity and make communication decisions "seamless" to the officer so they don't have to worry what network they're connected to, which one will work, etc - it just works everywhere and all the time!	TE ATA TUHI

TIME**PRESENTATION****ROOM****11:00 - 11:30****APPLE****TE ATA MAHINA****Wellness at work with Apple Watch**

Apple Watch is our most personal product ever - the ultimate device for a healthy life and bringing a whole new dimension to fitness, health, productivity and safety. This session will explore how Apple Watch is being used across the health insurance, athlete and emergency responder space to help all employees live a better day.

11:45 - 12:15**CISCO****TE ATA TUHI****Cisco - The Network Intuitive**

Gain insights into Cisco's strategy that is focussed on Cisco doing more of the heavy lifting, providing our customer and partners the tools to focus on their core business. Secure intelligent meetings, WIFI 6, Secure SD-WAN and 5G driving the next generation of connectivity and applications driving the network intuitive in real time.

With unsurpassed investment, R&D and innovation Cisco is at the heart of the next internet revolution.

Presenter: Glen Bearman

11:45 - 12:15**IBM****TE ATA MAHINA****COMING SOON**

Presenter: Lori Hand, Public Sector Leader, Global Business Services

Lori leads the Global Business Services Public Sector Team at IBM New Zealand, bringing her extensive government experience from North America, the Middle East, Asia and Australia. Her career as a consultant and leader has been centred on delivering organisational strategy, data-driven solutions to citizen issues, and multimillion-dollar transformations across multiple Government Departments, social services organisations, universities, and health care clients.

Outside of IBM, Lori contributes her time to Hadassah charities where she has designed and led youth village child refugee induction strategies for youth with severe emotional problems. She was elected President of Board of the Professional Women's chapter of Hadassah's Washington, DC office in 2006, and is currently a member of the New Zealand Institute of Directors.

An admitted "statistics geek", Lori taught for four years as an Adjunct Professor at The George Washington University in Washington, DC. She lives in Wellington with her husband and three children.

12:30 - 13:00**ZAG****TE ATA TUHI****SAP and ESRI enabling Police for the future**

SAP is embracing the Spatial Industry and has allied itself with the major vendors like Esri to provide additional functionality for users. But what is Spatial Industry really about and why should you care? Zag's Head of Spatial Services dives into what is already there and how this alliance can benefit emergency services operations now and in the future.

Presenter: Matti Seikkula, Head of Spatial
